

## **Edenreach**

### **Waste Management Policy Statement**

Edenreach LTD strides to be the driving force behind the positive environmental and social changes in the UK. We are dedicated to support our partners in developing ESG focused investment propositions, and to effectively support investment into impact areas, including but not limited to environment, climate change, human rights, justice reform, access to justice, foreign aid, and equality.

Edenreach LTD is management consultancy company registered in England and Wales with reg. number 14711724 located in London, England.

Edenreach is actively committed to using resources in a net-beneficial way and implementing a circular economy strategy throughout our activities. In line with this, our goal is to maintain maximum use of products and materials throughout their lifecycles. Additionally, we advocate for recycling and the advantages of using used materials. However, if disposal is the only option, we'll try to do so in a manner that respects the environment. In order to accomplish the abovementioned goals, we will:

- When possible, avoid, then minimise waste streams of high volume and high cost.
- Adopt solutions that minimise our plastic impacts and reduce the amount of plastic we use, especially single-use items.
- Audit potential Waste Management Suppliers pre appointment to ensure they are of an acceptable standard.
- Give written guidance and information to staff to facilitate their participation in the recycling of their waste.
- Encourage suppliers to design packaging materials in accordance with a circular economy perspective.
- Encourage the purchase of products with recycled content; also select products and materials with recycling potential.
- Minimise waste by encouraging the exchange, and reuse of equipment and materials amongst departments.
- Manage hazardous waste correctly, such as asbestos removal if applicable.

- Have an appointed employee taking logs of how the waste is managed and disposed of.

Edenreach is aware of how important it is to manage waste materials properly in order to avoid pollution and guarantee that environmental regulations are being followed.

To properly uphold its Duty of Care obligations, Edenreach makes sure to stay updated on changes to the legal frameworks in relation to Waste management. Edenreach regularly communicates with the regulator to make sure the best practices are followed, and legal obligations are met. We promote cooperation and coordination among our employees, subcontractors, and clients in order to achieve our shared objective of decreasing waste at its source and, whenever possible, reusing and recycling our waste. We will acknowledge, respond appropriately, and take into account of the views of the public and any other interested parties with respect to our operations. In addition, this policy statement will be communicated to all persons working for and on behalf of Edenreach.

If you have any questions or concerns don't hesitate to contact our Compliance Officer or file a complaint through our Grievance Procedure.

This policy will be reviewed no later than two years from the date of policy approval.
